LaGrange Animal Services Receives Donation to Provide 100 Microchips to Animal Owners, Free Microchip Clinic to be held in Fall

LaGrange, Ga. July 9, 2019 – LaGrange Animal Services received a \$700 donation to be used for 100 microchips. These microchips will be given to local animal owners to help reduce the recidivism rate of animals entering the shelter.

LaGrange Animal Shelter

“In June, the LaGrange Animal Shelter took in 344 animals and only had 17 animals redeemed by owners. We also had 78 adoptions and 196 animals sent to various rescues across the United States,” said LaGrange Animal Services Supervisor Chris Bussey. “If the animals we

took in had microchips we could reunite these animals with their families and help reduce our recidivism rate.”

The Animal Shelter plans to host a microchip clinic in the fall to provide free microchips to animal owners. The date and location are still to be determined.

The donor of this money wishes to remain anonymous.
